Candidates Announce

PAHOKEE — All three of Pahokee's incumbent City Councilmen said this week they will run for re-election in the May 4 primary.

Council President James Harry Wilkinson, jr., 1953 President R. B. Simonson, and first-term Loren Meredith said they will run on their records of progressive service to the community, letting their accomplishments speak for themselves.

Wilkinson said he particularly would like to see the new sidewalks and street project completed, and hopes to continue work on that if reelected. He will be in Pahokee all summer, with the possible exception of the month of July, and is not planning to go out on a long summer vegetable deal, Wilkinson said.

Simonson first came to the Glades in 1930, and returned to stay in 1945. A native of Decatur, Ill., he attended schools in Loxahatchee, Ark., Glades, Ill., and Illinois Wesleyan and Bradley Tech in Illinois. Simonson served with the U. S. Navy in 1931-1935. A farmer, rancher, and contractor, Simonson is married and has two children. He is a member of First Methodist Church.

Meredith, who is serving his first term, was born in Lamar, Colo. He came to the Glades in 1928 for the first time, and returned in 1931. He attended Pahokee high school and served in the U. S. Navy for seven years. He is married and has three children. Meredith, a farmer, contractor, and rancher, is attending vocational agriculture school nights at Belle Glade. He is a member of the American Legion, the Masons, and First Methodist Church.

Polio Vaccine Gets Okay

Both the Palm Beach County Medical Society and the Palm Beach County Pediatric group this week endorsed the proposed vaccination of school children against infantile paralysis, spokesmen for each group said. Dr. C. L. Brumback, county health officer, urged parents of children desiring them to be included in the tests — "probably to be given the last week of this month" — to fill in the request forms freely distributed.

Palm Beach County is one of the three selected counties in 44 of the 48 states to participate in the "field trial" of the new polio vaccine. Said the pediatric group this week: "We feel that the checking and rechecking of the tests to determine the reliability of the vaccine renders it suitable for human consumption."

BELLE GLADE C-C TO EMIGRATE FIRST OF WEEK

BELLE GLADE — If the plumber, the carpenter and various others who are putting the finishing touches on the new Belle Glade Chamber of Commerce building cooperate today and tomorrow, the temporary Chamber office will move in beginning Monday.

The new building, which will be dedicated May 6, is of concrete block construction with rose-colored slump brick finishing. Its total cost probably will not be much over \$5,000, with generous donations of time, money, and discounts given by members, Secretary Edwin Young said this week.

SLAUGHTER IS APPOINTED

W. A. Slaughter, driver education teacher at Pahokee and Belle Glade, has been appointed one of five directors to organize a program of safety education in the state of Florida, by Zolzie Maynard, state director of health, physical education and safety.

"Statistics show a definite decrease in accidents in all communities where driver education is taught," Slaughter reported this week. He said that the big aim of the five-man committee is to get all schools in the state to institute driver education courses. Some schools which dropped the course for economic reasons have now asked reinstatement, Slaughter said.

The local driver training man was appointed at the FEA driver education teachers' meeting Saturday in Miami.

Specifications are for either three or four horizontal pumps or four vertical pumps, with a total capacity of over 1,600,000 gallons per minute. The pumps will be driven by full Diesel engines.

Bids will be opened in the Jacksonville District Office of the Corps of Engineers on May 20.

The pumps will be installed in a station to be built in the south of Hurricane Gate Structure No. 4, near Belle Glade. The station will pump water from the Hillsboro and the New River Canals into Lake Okechobee. It will be capable of pumping 34 min of run-off water a day from the farming area which is tributary to the north river 15 miles of the North New River Canal and the section of the Hillsboro Canal north of the Bolles Canal, according to the Engineers.

Col. Schull said that bids would be asked on construction of the housing structure of the pump station probably in Sept.

WAR OR PEACE: Here's one Congressman's opinion. Jim Haley was asked what he thought about our chances of getting "mixed up in Indo-China." His answer, "We're already in the war in Indo-China. When we see technicians over there we get into it. Right now we are just going through a period where the American people are being conditioned for the truth about it. I said from the beginning that when we made the sort of peace that we did in Korea we'd be right back in another mess. I believe that if President Truman had negotiated and settled for the same sort of peace in Korea that this administration did, that he would have been impeached. I am not a bit optimistic about the whole thing."

PLEASE STOP: Hey, how about easing up on requests to your Congressman for copies of the beautiful, new eight-color maps of the United States. What's this all about? A recent news story told about the new maps and said that 40,000 were being printed and that 30,000 would be available free through the Congressmen's offices. The remaining number would be sold for \$4 each. Many people must have understood the story to say that each Congressman would be reimbursed because each Congressman - according to latest plans - will receive only 50 copies of free distribution. This isn't even enough to give one free copy to each school in their districts - which many would like to have.

Mayhaws, here I come. And I owe my urgency to the Agricultural News Service put out by the University of Florida, FSU, and the USDA.

In that publication, my eager paw lightly on an article entitled simply "The Mayhaw". Naturally, it occurred to me that this is another of those obscure cattle diseases, like of which (fortunately) do not occur in dogs or people.

But, the first sentence showed me I was wrong. It read, "It's just about time or soon will be for mayhaws to begin falling."

Well, that made it simple. A mayhaw, then, is something like a typhoon, or a tornado, or hail - - - or perhaps pennies from heaven.

But whence cometh the mayhaw?

Next sentence solved the when. "Look for mayhaw trees on damp river banks, or in shallow ponds in central and northern Florida."

Stars above! - - - is it only I who don't know about mayhaws? The way I figure it, even with a difference in temperature, the Glades must have a little mayhaw growing somewhere. If we do, this news service article says mayhaws are lousy with peetin', and therefore "are natural jelly makers."

Turns out you go and pick a few mayhaws, which are bright yellow-red fruit about the size of the end of your thumb, then you boil, crush, and strain the little things and there the juice you're in a jelly-making mood.

When the mood strikes, you can do up the mayhawjuice into jelly, or if you've already struggled with 14 other varieties, perhaps mayhaw butter would appeal more.

Mayhaw butter is "grand" served with fresh pork, baked ham, or sausage, the article concludes. So I'm off to see the mayhaw. Of course, somebody else will have to make the jelly.

Belle Glade Jr.-Sr. Prom Glittering

"Stairway to the Stars" was the theme used Friday night when the juniors of Belle Glade high school entertained their senior classmates at the annual Junior-Senior Prom in the high school gymnasium.

The junior class colors of silver and blue were used in the decoration of the gym. The entire ceiling was decorated with silver stars swinging from blue streamers. The blue velvet curtains on the stage were closed and covered in twinkling stars. The gym was lined with flowers and potted palms. One corner of the gym was the site of a miniature garden with real sod flowers, surrounded by a white picket fence, with a star shaped pick in the center.

The grand march was led by juniors and seniors. Ann Henderson sang, Glenda Dell and Suzanne Forsee played a Jamaican rumba. Dalton Harrison sang a tenor solo, the girls' trio, composed of Joanne Hollister, Dorothy Bressler and Ann Henderson, sang two numbers. Sandra Gove sang, and a ballet number was given by Martha Lynn Brent. Music for dancing was by the "Blue Notes," an orchestra from Lake Worth.

The annual banquet was held in the school cafeteria preceding the prom. County School Superintendent Howell L. Watkins gave the invocation. Miss Claudia Phelan was toast mistress and the program was presented by the students in keeping with the theme.

theme. The junior class was in charge of arrangement, assisted by Mrs. Hazel Litchfield and Bill Nicholson, class sponsors.

ROBSEVATIONS

By BENJAMIN S. ROBERTS

Lahaina, Maui, Territory of Hawaii

Dear Ben:
Can you imagine how discouraged we would feel if we became a state because one political party needed our two votes to gain a secure majority in the Senate? That is why I was keenly interested to read in the Honolulu Advertiser the voting record of the Senators. Some Democrats voted for our admission as a state and some for granting us commonwealth status.

Whatever the maneuver, we were not being asked into the Union solely on the basis of political affiliation.

You will recall the history of Hawaii as a series of episodes during which Great Britain, France and even Czarist Russia sought to control these islands for use as a Pacific Ocean base. In 1898 we saw that the monarchy was insufficiently strong to hold out against foreign intervention. After we deposed Queen Liliuokalani - in spite of the fact that she composed Aloha-oe - and set up a provisional government under Mr. Dole's leadership we were happy to become a territory of the United States. Until then we had for more than 70 years been subject to pressures from abroad.

Probably the stamp of New England was stronger on us than any other. Oddly enough that influence was from missionaries on the one hand and the whaling fleet on the other. Both Great Britain and the United States recognized us as an equal sovereign nation. When our King and Queen went on what was to become an ill-fated voyage they were honored in Washington and treated with due regard in England. Unfortunately they were struck down with smallpox while in England. The British Government provided a warship to bring their bodies home. Incidentally its skipper was Lord Byron's uncle.

Hawaii has always been a

prudent island territory. Proud in having accepted the responsibility of territorial status and eager to better serve the United States in whatever capacity it is able.

You know that I am three quarters Hawaiian, one quarter English and one hundred percent "United States" by birth and inclination. All of us are most proud of being American citizens and whether we live in a state or a territory or a commonwealth we want to serve America.

Thank you for not advancing our cause just because we represented two Senatorial votes - let us become a state, or whatever, on our merits alone.

Sincerely

David Kaneole

"My Best Buy of the Year"

"Having a telephone put in our farm home was my best buy last year. It saves valuable time in ordering groceries, or getting a doctor or help from a neighbor. The joy it gives me to chat with a neighbor, invite someone to church, inquire about a sick friend, or receive long distance calls from my children in other states—all these ways the telephone makes our farm life more worth-while." Mrs. I. E. Bazzell, Route 1, Box 164, Mountain Creek, Alabama.

Mrs. I. E. Bazzell of Mountain Creek, Alabama found her telephone so valuable she sent an unsolicited letter to The Progressive Farmer, through whose courtesy it is reprinted at the left.

A lot of people everywhere feel as Mrs. Bazzell does—that the telephone is their "best buy". On farms, in cities, day in and day out, the telephone serves in so many big and little ways. Yet its cost is small, less than a penny an hour for the average family.

CHRISTIAN SCIENCE GROUP Canal Point

Man's spiritual unity with God, as taught and lived by Christ Jesus, will be brought out at Christian Science services Sunday in the Lesson-sermon entitled "Doctrine of Atonement."

Keynoting the Lesson-Sermon is the Golden Text from I Timothy:

"There is one God, and one mediator between God and men, the last man Christ Jesus; Who gave himself a ransom for all to be testified in due time" (2:5,6).

The following passage will be among those read from "Scriptures" by Mary Baker Eddy:

"We acknowledge Jesus' atonement as the evidence of divine, efficacious Love, unfolding man's unity with God through Christ Jesus the Way-shower; and we acknowledge that man is saved through Christ through Truth, Life, and Love as demonstrated by the Galilean Prophet in healing the sick and overcoming sin and death" (4:97-13).

From the Bible the following verses will be among those read: "Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new" (II Corinthians 5:17).

A new public address system purchased by members of the Senior Youth Fellowship of Pakohee First Methodist Church was used Sunday at the morning worship services for the first time.

From where I sit... by Joe Marsh

Easy Does It—Again!

Ladies Aid Society had their rummage sale the other night—and as soon as the doors opened, "Easy" Roberts was hauled.

Without a word, he headed straight for the coat counter, picked out a shabby old tweed jacket, and paid for it. "Easy" had a little later that buying his jacket back was getting to be a regular habit.

"That's been my favorite smoking jacket for years," he said. "And my wife talks me into giving it away regularly. Then I get to thinking how much I like it and hurry down to buy that jacket back. This is the third time I've done it!"

From where I sit, everyone's entitled to his own likes—whether it's a sports jacket, a baseball team, or the beverage he likes for dinner. For example, the wife likes coffee along with Saturday night spaghetti while I like a glass of beer. We never try to "sell" each other on our personal preferences.
